Recruitment Committee
ISOMO Internship Vacancy Program

Dear Sir/Madam,

I am very excited to apply for the Music and Performance (Piano and Studio) position of Isomo Vacancy Internship program. As a Senior 5 student of Agahozo Shalom Youth Village (ASYV) doing Mathematics, Economics and Computer Science option I have grown a strong interest in creative art, music production and would be grateful for this opportunity to share my passion, utilize my skills, be mentored and provide my assistance in an environment that promotes learning and productivity.

At Agahozo Shalom Youth Village, I have gained competent skills in Creativity, Communication, teamwork and technology throughout my learning as well as by actively participating in several co-curricular activities. My computer science background gives me skills in use of various digital systems, devices and logical thinking that can greatly help me in studio work processes. I also have hands-on experiences in music making processes, including beat making, audio editing, basic sound designing and Graphic design of various artworks.

In other non-musical fields I have also participated in different activities that required creativity and leadership, including designs, sports and project activities. These experiences have made me a hard working, adaptable, cooperative student when teaching different kinds of learners. My desire to join the Isomo internship is deeply inspired by the aspiration to teach other students music production by simplifying concepts and guiding them step by step through hands-on practice.

I believe I can be a valuable asset throughout the internship period by acting as the facilitator in the music production sessions, guiding students in their activities, and collectively contributing in building a stimulating atmosphere. More importantly, this internship opportunity will serve as a great platform to develop and enhance my music production and teaching skills in a practical, applied context.

Thank you for considering my application. I am very much looking forward to the opportunity to demonstrate how I can be an asset to the Isomo program as a music production facilitator.

Sincerely,

Heritier Byiringiro
